PROFILE SUMMARY

Data Analyst with hands-on project experience building end-to-end BI dashboards and uncovering business insights from large datasets using Power BI, SQL, and Python. Skilled in data modeling, KPI development, and pipeline automation, with a strong foundation in statistics and machine learning from a B.Tech in Computer Science (AI Specialization).

EDUCATION

Babu Banarasi Das University

2022 – 2026

B.Tech in Computer Science Engineering (AI Specialization)

Lucknow, India

- **Relevant Coursework:** Machine Learning, Artificial Intelligence, Statistics, DBMS, Data Structures
- **Focus Areas:** Data Analysis, Machine Learning Pipelines, Data Visualization

TECHNICAL SKILLS

Programming & Query Languages: Python, SQL

Data Analysis: Exploratory Data Analysis (EDA), Data Cleaning, Data Transformation, Data Wrangling, Statistical Analysis, Feature Engineering, Pandas, NumPy

Business Intelligence & Visualization: Power BI (DAX, Power Query, Data Modeling, Dashboard Development), Tableau, Microsoft Excel (Pivot Tables, XLOOKUP, Power Query), Matplotlib, Seaborn

Data Engineering: Microsoft Fabric (OneLake, Lakehouse, Warehouse, Data Pipelines), ETL Pipelines, Data Integration

Databases & SQL: PostgreSQL, Star Schema, Fact & Dimension Tables, Joins, CTEs, Window Functions, Aggregations, SQL Query Optimization

Tools & Technologies: Git, GitHub, FastAPI, Streamlit, Jira

PROJECTS

Swiggy Sales Intelligence Platform (End-to-End Data Analytics) | Microsoft Fabric, SQL, Python, Power BI | GitHub

- Built an **end-to-end analytics pipeline** using Microsoft Fabric (OneLake, Lakehouse, Warehouse, Data Pipelines) to process and analyze **200K+ sales records**.
- Designed a **star schema** in SQL with optimized joins, indexing, and transformations, improving query performance by **40%**.
- Performed **EDA** using Python (Pandas, NumPy, Matplotlib, Seaborn) and built a live **Power BI dashboard** tracking **Rs. 53M in revenue, 197K orders, Rs. 268 average order value, and year-over-year growth trends**.
- Delivered insights including **60%+ preference for vegetarian items** and **70% revenue concentration in top regions**, and automated Fabric data pipelines, cutting manual reporting effort by **80%**.

Samsung Supply Chain Analytics Dashboard | Power BI, DAX, Data Modeling | GitHub

- Developed a **supply chain analytics dashboard** integrating procurement, inventory, logistics, and sales data across **10K+ transactions**.
- Designed a scalable **fact & dimension model** and built advanced **DAX measures** for revenue, profit margin, inventory turnover, lead time, and service-level KPIs.
- Identified supplier bottlenecks and inventory imbalances — including a **15% shipment delay rate** — through interactive dashboards, drill-through reports, and KPI monitoring, improving operational visibility.

LEADERSHIP EXPERIENCE

IEEE Student Branch – BBDO

Nov 2024 – Present

Membership Chair

Lucknow, India

- Coordinated technical workshops and events, and led member recruitment through interviews and candidate shortlisting, to grow participation in the university's technology community.
- Managed member engagement initiatives and role assignments, improving communication and collaboration between students and faculty.

National Service Scheme (NSS)

Nov 2022 – Sep 2024

Social Media Head

Lucknow, India

- Led a team of **10 volunteers** to manage social media campaigns and digital outreach, completing **240+ hours** of community service through volunteer-driven initiatives and special camps.
- Analyzed engagement metrics to optimize content performance and improve reach across campaigns.

CERTIFICATIONS

Deloitte: Data Analytics Job Simulation – Forage (May 2026)

HCL GUVI: Data Analytics Workshop – Power BI and Tableau
